

## LID FOR 240 L BINS

HIGH QUALITY, ROTOMOULDED LID  
IN A SINGLE SKIN FORMAT

Stylish modern look.

Double-walled hinges designed  
for extra strength.

Can be personalised with a  
moulded-in custom  
name plate.

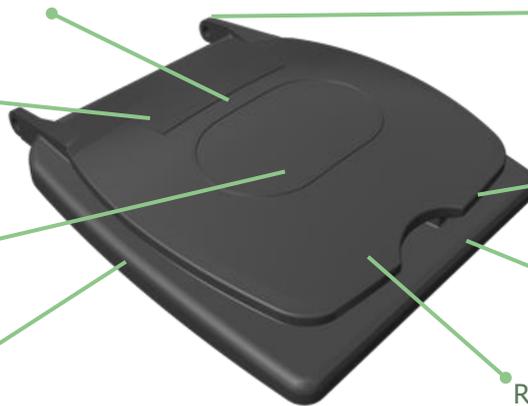

Additional weight compared with  
original lid **will inhibit it  
from blowing open.**

Designated area for  
stickers with  
name or logo etc.

Handle slot for easy  
opening and closing.

Lid can be opened  
from 3 sides.

Rotationally moulded: For greater  
durability.

240 l bin lids are usually injection moulded. These flimsy lids suffer from inbuilt stress & brittleness which causes them to fracture under external forces from trucks and general use & abuse.

> Thanks to the absence of inbuilt stress, our rotomoulded DuraFlex® lid is more durable & of higher quality.

### AVAILABLE ACCESSORIES

- > universal 13 lid pins for most standard 240 l hinge lugs and fixing bungs (included with the lid).
- > 20mm lid pins available upon request.
- > retaining handle to keep lid closed & to prevent it from blowing open.
- > replacement nose wheels & axles for 120, 140 & 240 l bins.

### MATERIAL

> Rotationally moulded from UV-stabilized LMDPE; oil, chemical & frost resistant; 100% recyclable.

### COLOURS

> Available in black and a wide variety of colours.
